EXPERIENCE

Discover Financial Services — Full Time Backend Software Engineer

July 2022 - PRESENT

- Designed, developed, and maintained robust backend systems and APIs using Node.js, Express, Javascript, and Postgresql, ensuring seamless data flow and integration for the Discover Technology Academy platform. A platform that provided a comprehensive suite of learning and development resources designed to enhance the technology skills of 2000+ Discover Financial employees.
- Integrated cloud services and tools such as Openshift, AWS, S3 and Vault to enhance the scalability and reliability of the training platform, including setting up CI/CD pipelines with Jenkins for automated deployments.
- Deployed production code to ensure high availability and performance of the platform.

Discover Financial Services — Business Technology Intern

June 2021 - August 2021

- Developed a content processor that converted markdown files to HTML, enhancing an internal website's usability for over 700 Discover employees. Utilized technologies such as Node, Pivotal Cloud Foundry, and Markdown

Best Buy — Sales Advisor

June 2019 - May 2021

- Engage with customers using relationship skills and inspire them to see what is possible with technology

EDUCATION

University of Central Florida — Bachelor of Science in Computer Science - 3.5 GPA

August 2019 - May 2022

Relevant Coursework: Object Oriented Programming, Computer Logic & Organization, Calculus III, Security in Computing, Physics II, Discrete Structures

Valencia College — Associate of Art in General Studies

August 2016- December 2018

PROJECTS

Portfolio Website — React / Gatsby / Firebase

[Github Repository](#)

- A modern, performant, and visually appealing personal portfolio website built with Gatsby

Misu - Smart Home Mobile app — React Native

[Github Repository](#)

- Mobile application that allows a homeowner to safely share access to their smart home devices to their guests
- Utilized complex styling practices to incorporate animations and ensure application uniformity on multiple OS's and devices
